Jenna

Grade 8 – 2 ½ years in Arrowsmith

I have seen improvements in math, printing, writing, and memory. Before math was impossible for me and my brain never retained any information. Now my marks in math are much better and I remember the things I learn. My printing has, believe it or not, improved. (Even though it's still messy) Recently I've learned to write better stories that other people actually seem to enjoy reading, where before they were choppy and didn't make complete sense. Last of all my memory has improved. Before I would walk into a room and completely forget why. Now I can keep a steady train of thought and rarely forget why I've walked into a room.

Zoe

Grade 9 – 2 years in Arrowsmith

I see improvement in my seizures. Arrowsmith has taken my seizures away in my opinion. Another area that I see improvements is understanding math. I can do more multiplication than I could when I first started Arrowsmith. Strength is another improvement for me because last year I couldn't really do a lot of things just like jumping very high. I can this year! I have a better memory than I had the past 14 years of my life! Thanks Arrowsmith and all teachers for helping my brain function better. It means the world to me and my parents!

Olivia

Grade 4 – 1 year in Arrowsmith

I don't reverse by B's and my D's. I'm starting to be good at reading and math. My handwriting has improved. Also I'm doing hip-hop and I know which side is left and which side is right. And my memory is an improvement. Arrowsmith has picked up the pieces to my puzzle and put it back together. Arrowsmith is helping me read a clock. 1 hand, 2 hands, 3 hands, 4 hands and 6 hands. Right now I'm on 2 hands but I know one day I will be doing 6 hands. My adding is improved and times tables and my long division questions and I can do $500 + 200 = 700$. I'm organized and tidy. I'm remembering sentences. Yay! Woohoo! Arrowsmith is helping me and my brain.

Quinn

Grade 6 – 3 years in Arrowsmith

I do better in math and spelling. I do good on the spelling tests and as well I plan my homework time. All I have to do is spelling and journal. I did good on my Arrowsmith homework. I am better organized and I express myself better. My memory is better. My brain has changed by doing Arrowsmith. It's helping me. It gets very hard but when I master it is easy. Things are changing.

Ryan

Grade 8 – 1 year in Arrowsmith

I have seen improvement in my marks for projects and tests. My productivity has gone up a lot. The work that has seemed pointless for this whole year has helped me with every thing that isn't pointless.

Noah

Grade 8 – 1 year in Arrowsmith

I have seen improvements in almost everything. I am getting to work faster and doing it more efficiently. I am doing my work without thinking that it is too hard or I can't do it. I am doing it like it is all too easy. I would use to have to do half my math at school and the other half at home. Now I get it done at school. Please don't say this out loud but I didn't know how to read analog clocks until I was in Arrowsmith. This was a very helpful program. This will probably help me for the rest of my life.

Khloe

Grade 7 – 2 years in Arrowsmith

I have seen improvements in my writing for example I used to write all my letters from the bottom but now I write them all from the top. I have also seen improvements in spelling I now find it easier to memorize my spelling words. I find it easier to remember my dance routines for dance class. I am getting better at just sitting down in class and getting to work even at home I don't stall as much as I used to. I have got better at writing in detail. I also

improved in reading I used to have to really focus to see what line I was reading in my book and sometimes I would even skip lines. Now math the thing I have had trouble with ever since I was little, it had been very hard but I felt like little by little I am getting better I am finding it easier to remember how to do what ever question I'm asked to do. Over all I feel like Arrowsmith has helped so much this year but I couldn't have improved nearly as much as I did without my lively, amazing , great teachers miss Meghan and miss Janet. Miss Meghan and Miss Janet thank you for such a great and amazing year I have come so far this year with your help!!! You guys rock!!! 😊

Sarah

Grade 5 – 1 year in Arrowsmith

I have seen improvement in understanding what the heck my mom is trying to tell me, which, let me tell you, when your mom is a librarian it can sometimes be hard to decode her wide and unusual vocabulary. I have also found improvement in remembering, like, for example, sometimes when I am packing to somewhere, I sometimes almost go camping without remembering that I need to pack something as necessary as underwear. YES, I am 100% serious. I have also found a LOT of improvement on my anxiety issues. Now instead of freaking out and starting to read a book to calm my senses, I carefully think of any past lessons that might relate to the lesson in any way, or if it isn't school related, I go to my room and read or I go and watch a movie. Some exercises help me stay calm and others drain my energy and I am less likely to get anxiety if I have little energy.

Daniel

Grade 8 – 2 years in Arrowsmith

It has helped me with memorization and drawing and being a role model and being smarter with things I shouldn't be doing (like playing with tools and cars). In general it has made me better.
